

## Compact Disc Inlay Card

1. Broken line indicates perforation.
2. Pitch of the perforated lines is 1 mm as standard (1 mm, 1 mm, 1 mm).
3. To be perforated individually.
4. Film requirements:  
150 line screen, negative, right reading, emulsion down.
5. For double CD packaging that requires two inlay cards, the spines on the front inlay read outward (opposite to the above illustration) the spines on the back inlay read inward (as per illustration).
